Any other relevant information

Sedgehill Secondary School is opposite. The school is accessed via Dunfield Road from either Beckenham Hill or Southend Lane and is a dead end at both end. Cars therefore turn in both ends outside the school. At the moment we have only one entrance for both cars and pedestrian. Ideally we would like a separate pedestrian only gate.

Commentary on results: Graph shows car use as high, however most car users do not park directly outside the school as there is very limited parking space (for 8 cars only). They park and stride from additional nearby roads, so park and stride is probably higher than that shown. Park and stride has increased.
